## SVM Strategic Planning

The School of Veterinary Medicine has started to develop a new strategic plan for the next 5 – 7 years. The goal is to have this plan completed by the end of June. The Strategic Planning Committee is chaired by Drs. Turek and Amass and includes Drs. Camp, HogenEsch, Hooser, and Moore from CPB. This is a plan for and by faculty, staff and students and the committee is seeking your input. Information on the existing strategic plan and the development of the new strategic plan is being posted on the SVM website. You can also contact the members of the committee to provide your input.
