Faculty Position for Food Animal Ambulatory Clinician
Purdue University College of Veterinary Medicine

The Purdue University College of Veterinary Medicine (PVM), Department of Veterinary Clinical Sciences (VCS), invites applications for a full-time (12 month) clinical track or tenure track faculty position at the Assistant or Associate Professor level. PVM is highly supportive of individual faculty career growth and development. A formal faculty mentoring program is in place.

The successful candidate will actively participate in the learning, discovery and engagement activities of the PVM and VCS department. These activities include: Clinical: Providing clinical service to VTH patients primarily in an ambulatory setting; building strong relationships with beef cattle clientele and referring veterinarians; teaching and supervising veterinary students, veterinary technician students, and house officers. Learning: Responsibilities include clinical, didactic and laboratory instruction of DVM students, veterinary technician students, house officers, and graduate students. Discovery: Participation in collaborative research that complements and builds on current PVM and Department of Animal Sciences faculty interests and strengths (www.vet.purdue.edu/vcs/; https://ag.purdue.edu/ansc/Pages/default.aspx). Tenure track faculty would be expected to conduct independent as well as collaborative research. Service and Engagement: Participation in committee work, professional organizations, delivery of continuing education and Extension programs, and other appropriate activities.

Commitment to the PVM missions of learning, discovery, and engagement and the support of the College strategic plan (http://purduevetmed.freeflowdp.com/purduevetmed/9361875872484583?pg=1#pg1 ) is essential. The successful candidate is expected to promote an atmosphere of collegiality and cultural diversity in the College.

Qualifications for the position include a DVM or equivalent degree and board certification or board eligibility in a relevant discipline. Preference will be given to candidates eligible for Indiana licensure. Candidates should have a sincere interest in providing outstanding clinical service, Extension outreach, teaching, and participating in collaborative research. Candidates must possess excellent interpersonal, communication, and teaching skills, and be able to work collaboratively with faculty, staff, house officers and producer clientele. The predominant clinical responsibility will be caring for beef cattle (both commercial and pure-bred), and dairy cattle. Occasional treatment of small ruminants, swine and camelids is anticipated. Development of a beef herd production management program would be supported. Primary emergency call is shared with other food animal ambulatory faculty. Salary will be commensurate with the candidate’s qualifications and experience. A background check will be required for employment in this position.

Review of applications will begin on March 1, 2016, and will continue until the position is filled. Applicants should send a letter of intent describing professional goals, a curriculum vitae, and the names, addresses, and contact information of three professional references to: Ms. Tressa Bowman, Department of Veterinary Clinical Sciences, College of Veterinary Medicine, 625 Harrison Street, West Lafayette, IN 47907-2026, email: bowman46@purdue.edu.

The Purdue University College of Veterinary Medicine values, nurtures, and respects all members of its community and ensures an environment of inclusive excellence where all students, faculty, and staff are inspired and empowered to achieve their full potential. Purdue University is an EOE/AA employer. All individuals, including minorities, women, individuals with disabilities and veterans are encouraged to apply.
