

GLOBAL VETERINARY MEDICINE CERTIFICATE PROGRAM

PRE-RECORDED ONLINE WORKSHOP SERIES- RELEASE DATES

ABOUT

The Global Veterinary Certificate Program was created to provide PVM students with a complete cross-cultural experience for before, during, and after traveling abroad. The certificate is tailored to give students a better understanding of Global Veterinary Medicine as well as prepare them to engage with the culture they are experiencing.

Students will gain insight on:

- Global approaches to Veterinary Medicine
- International perspectives on animal welfare
- Staying safe and healthy abroad
- Engaging with the host community and culture
- Opportunities abroad
- Applying experiences to the job market

GUIDELINES:

- Must complete the International Veterinary Medicine course (VM 80900) offered in the Spring
- Must attend at least 4 workshops (in person or online) hosted throughout the year
- Must participate in an international experience related to Veterinary Medicine before graduation
- Required attendance at the Pre-Departure Lecture before start of travel
- Must attend the Marketing Your Global Experience workshop upon return
